- **REDUCE FINANCIAL BURDEN**
Broad and diverse portfolio designed for quality and durability

GREENER & MORE
SUSTAINABLE PORTFOLIO

Environmentally Focused

- Compatible with recovery and recycling technologies and local requirements
- CertiPUR-US® certified foams improve the health, environmental and safety experience of patients

Sustainability

- Design and content enhance useful life improving consumption and sustainability
- Elimination of unnecessary chemicals results in purer material and can lead to improved durability

MANIPULATION OF FOAM PROPERTIES

Open cell memory foam technology

- Allows greater air flow resulting in more breathability and a cooler, drier patient experience
- Materials less affected by fatigue – better height and support retention with faster recovery time

Surface Modification and Layering

- Alterations in pattern, size of pattern, spacing between patterns and depth of cut to protect high risk areas
- Zoned pressure redistribution with improved air circulation and maximized comfort

TEMPUR® Option

Partnership with Tempur-Pedic® to provide genuine TEMPUR® material on the PrevaMatt Alleviate

- Reduces wound incidence rates
- Treats up to Stage 3 uncomplicated pressure injuries

SAFETY AND SECURITY

Firm Perimeter

- Provides edge of bed stability
- Aids ingress and egress

Optional Raised Perimeter

- Aids in fall prevention
- Reduces risk of entrapment

When used as part of a Joerns bed system, our PrevaMatt mattresses are guaranteed to meet the guidelines set forth in the Hospital Bed System Dimensional and Assessment Guidance to Reduce Entrapment developed by the Food and Drug Administration (FDA) and the Hospital Bed Safety Workgroup (HBSW).
